

March 4 – Behavior & Training
2:30 pm - 4:15 pm

The Use of Stuffed Dogs in Evaluations, Consults and Classes

More and more trainers and consultants are using stuffed dogs (and cats) in their practices. There are some very good reasons to use the artificial animals, not the least of which is keeping our own dogs safe. In this workshop, presenters discuss methods of using stuffed dogs and illustrate through video how they can be most effectively utilized.

Trish King, CPDT, CDBC

Ms. King is Director of the Animal Behavior & Training Department at the Marin Humane Society (MHS) and the author of Parenting Your Dog. She teaches workshops and seminars on behavior, canine management, temperament assessment, and handling difficult dogs. Ms. King established the Canine Behavior Academy at the MHS, which covers training theory and techniques, handling dogs and teaching people. She is a certified pet dog trainer (CPDT) and dog behavior counselor (CDBC).
